Fundtech Begins Service, Lands Bank

Jersey City, N.J.-based Fundtech [FNDD] launched a new product, named ACCESS.pro, which enables banks to offer electronic banking services to corporations of all sizes, regardless of their level of computer sophistication. Customers will be able to access balance information, ACH, wire transfers, lockbox and securities information. ACCESS.pro supports delivery channels including Internet access, Windows PCs, TTY terminals, and fax. Republic National Bank of New York, with \$50.4 billion in assets, has chosen the system. (Tom Baudry, Fundtech, 770/734-3369.) ■
